S.No	Title	Author's Name	Publication Year	Finding	Pros/cons
1.	Income and Expense Tracker	P. Thanapal, Mohammed Yaseen Patel, T.P. Lokesh Raj and J. Satheesh Kumar	2015	In this project we propose an application known as “Income and Expense Tracker” which is helpful to manage out income and expense as an daily or periodically or else whenever we want to remind6 . It also act as an indicator or reminder example in the fastest world which we can't able to remember what are the things we have to do for the end of month and what are the payments we have to pay for the particular month	<p><u>Pros</u></p> <p>Figure out ways to cut back on your spending.</p> <p><u>Cons</u></p> <p>Automating everything to do with your finances can make you financially lazy</p>
2.	Online Income and Expense Tracker	S. Chandini1, T. Poojitha, D. Ranjith, V.J. Mohammed Akram, M.S. Vani, V. Rajyalakshmi	2019	In this project we propose a web application known as “Online Income and Expense Tracker” which is helpful to manage out income and expense as a daily or periodically or else whenever we want to remind. It also acts as an indicator or reminder example in the fastest world which we can't able to	<p><u>Pros</u></p> <p>After logging into the system, a user can add the bills with an option to attach the image of the bill or not.</p> <p><u>Cons</u></p> <p>The existing system is not user friendly</p>

				remember what are the things we have to do for the end of month and what are the payments we have to pay for the particular month.	because data is not maintained efficiently.
3.	A Smart Approach to Track Everyday Expense	Hrithik Gupta, Anant Prakash Singh, Navneet Kumar and J. Angelin Blessy	2020	Tracking daily expenses is not so innovative. Many traditional and technical approaches have been invented to track our expenses and budget with its functionality. Decades ago and today we write our expenses in the register to calculate profit or savings.	<p><u>Pros</u> Create a monthly budget.</p> <p><u>Cons</u> Your information is less secure, and probably being used and sold.</p>
4.	VOICE OPERATED REAL TIME EXPENSE TRACKER USING REACT JAVASCRIPT	_Shobhit Sharma Parth Verma	2021	In today's technological society, the major role played in people's life is played by earning. Each and every person requires money to live and adapt the standard of living. The today's developing generation is growing day by day and in this process of the betterment of the people's living quality, the demands of making people's life efficient and quality of life higher money is the major demand.	<p><u>Pros</u> Plan for future large purchases</p> <p><u>Cons</u> Security issues. To use financial systems based in the cloud, you typically must enter account numbers, user IDs and passwords.</p>

				Therefore, in context to that particular scenario we as a web developer invested our technical and logical skills in making a user friendly and using latest technology, we created a web application called as “The Real-time voice operated expense and transaction tracking” web application.	
5.	Spending Tracker: A Smart Approach to Track Daily Expense	Uday Pratap Singh, Aakash Kumar Gupta, Dr B.Balamurugan	2021	Since the inauguration of human civilization, people have exchanged their circumstances for one another to buy or sell goods. Since then, it has become an important and irreplaceable part of our daily lives. Most of us have a fixed income and we get it at a particular time (i.e., daily, monthly, annual, etc.). Besides, all of us follows a strict mindset of spending it. Generally, the budget is assigned according to category.	<p><u>Pros</u></p> <p>Create a savings plan for putting money away every month</p> <p><u>Cons</u></p> <p>Difficulty finding a budgeting method that works for you.</p>
