Sharon Renisha

The screenshot shows the Docker Hub website in a web browser. The address bar displays 'hub.docker.com'. A security advisory banner at the top reads: 'Security Advisory: Critical OpenSSL Vulnerability - learn how to tell if your repository is vulnerable.' The navigation bar includes the Docker Hub logo, a search bar with the placeholder 'Search for great content (e.g., mysql)', and links for 'Explore', 'Repositories', 'Organizations', and 'Help'. A user profile for 'sharonrenisha' is visible on the right with an 'Upgrade' button. The main content area features a large blue banner with the text 'Welcome to Docker' and 'Download the desktop application', with a 'Download for Windows' button. Below this, it states 'Also available for Mac and Linux'. At the bottom, there are three cards: 'Create a Repository' (with a laptop icon), 'Docker Hub Basics' (with a monitor icon), and 'Language-Specific Guides' (with a document icon).
